The Traffic Rider mod APK app is considered one of the best bike racing games, with great features and some great graphic work done by its creators. Still, it lacks user satisfaction when it comes to providing a hassle-free user experience because of some limitations in the game in the form of locked bikes, maps, and limited money.

This is the reason the modified version of this app is preferred more by people around the globe. It

provides users with unlocked features and a smooth experience of playing without the interruptions of ads in between.

Let's dive further and see how it is considered a better option than the original app by people and how safe and risk-free this game is for your Android device.

## ***How to download and Install the app?***

Before installing this modified app, first go to your mobile settings and search for "Unknown Sources," allow it to download from unknown sources, and it will allow you to download the app outside the Play Store.

Now, download the app from this site. After clicking the download, there will be a popup screen asking for permission; just click on "download Anyway."

Once the downloading is done, click on the downloaded APK file and install the app.

That's all you have to do. Now, open the app and enjoy the effortless gaming experience. 😊

## ***Overview of Traffic Rider Mod APK***

Traffic Rider mod APK is one of the most famous mobile bike racing games in the world. It was created by Soner Kara of SK Games and released in 2015. Even Though a large audience plays it, because of the limitations and those irritating ads and rules, people prefer to use the modified version of this app, which comes with unlocked features and free use of all resources.

The concept of this game revolves around its name, where you explore different places on maps by riding some amazing bikes with different powers on traffic-filled roads with cars, vans, and buses. Riding your bike at full speed with all guns blazing is the key to success in this game, and at the same time, dodging other vehicles to gain some points also helps to bring the level up.

With its realistic graphics and powerful background sound plays, it provides the user with a real-life experience while playing, which keeps the players addicted and engaged in the game without getting bored. If you look at the variety of options and features of this game, where you don't have to pay to unlock anything, you'll surely fall in love with this unlocked version of this app.

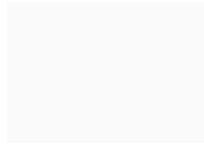

Another great feature of this game is that you can play it on your PC or connect it to a big screen in your room for a better view of the realistic graphics. This enhances the overall experience, improves gameplay, and makes it even more enjoyable.

## ***Latest Mod Features! What's New?***

Talking about the features of this game is a never-ending story as it has so many features that covering them up in one go is a difficult task to do; still, let's discuss some of the top features that attract the users more.

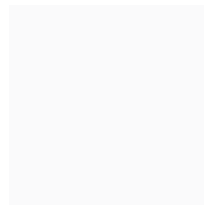

### ***Unlocked Maps & Missions***

Players can easily play any map or mission without completing the previous ones, which is another good thing about this app. This way, you don't have to wait too long, and you can easily skip those missions that you don't want to play.

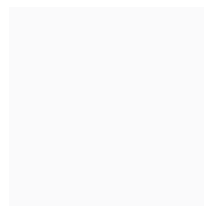

### ***Ads Free experience***

One of the big irritating things about playing online games is the ads, which keep popping up after some time, and they make you frustrated, But don't worry. Now, you can easily enjoy a smooth, ads-free gaming experience.

### ***Anti-Ban Protection***

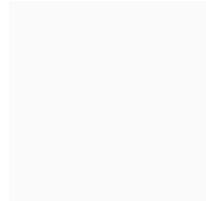

Before downloading this game, one of the main concerns about people's minds is the safety of this game and whether it would result in their account getting banned or not. Well! According to our research and experience, this game comes up with strong anti-ban protection, which keeps your account safe so you can enjoy it without any fear of losing data.

### ***Unlocked Bikes***

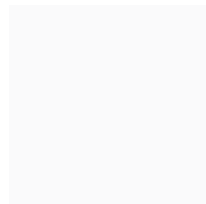

While playing this game, everyone wishes to ride all those heavy monster bikes parked in the

garage, and that is one of the big reasons people prefer this game, as you have access to all the beauties that are totally free.

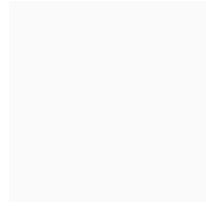

### ***Unlimited Money***

Another amazing feature of this app is that you have traffic rider unlimited money stored in your accounts so that you can purchase or unlock anything easily.

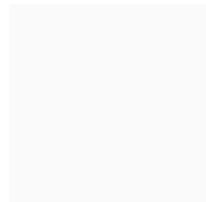

### ***Free Customization***

You can easily customize anything within the game without paying for it, and there is no limit as well, so feel free to try out different settings and see which suits you well.

### ***Unlimited Fuel***

You might have come across this issue in a simple game where the fuel ends, and you have to re-fill it. But in this game, you don't need to worry about this as you already have enough fuel in your bike tank that you can easily play all day without worrying about it.

### ***Change Camera Angle while playing***

While riding the bike on busy roads, you might find it hard to look for gaps clearly. In this case, you can pause the game and change your camera angle to any other angle according to your comfort. This way, you can improve your gaming experience and efficiency and adapt to the condition accordingly.

## ***Gameplay guide: How to play like a pro***

Playing a game can be fun and relaxing until you get to the difficult part and don't know how to play like a pro, but don't worry; I got your back! So, Let's discuss how you can play this game more effectively by selecting the right setting.

### ***Choose a bike***

Before you go on the road, make sure you have selected the best bike according to the situation or your interest. Now, selecting the right bike depends on different factors, and here, some of us make a wrong move while doing it. Let me explain how.

When we choose a bike before starting the race, we always try to select the most [premium bikes](#) in the garage with heavy features, and totally neglect the road we're going to ride it on. So, before selecting the bike, make sure you make the right choice, considering the power, handling, breaks, and missions you're going to compete for.

### ***Bikes Customization***

One more important point to consider before going on the road is customizing the bike according to your needs to get the desired results. For example, if the missions to complete 15 [max combos in Traffic Rider game](#), one should have basic knowledge before starting to do this. Let's discuss some of the things you can do to improve your chances of success.

- ☑ First of all, go to the garage and select a bike you want to ride.
- ☑ Now, at the top, you can see the options of Power, Handling, and Breaking, so just make sure you have updated them according to your needs.
- ☑ Next, click on the brush icon, and you can also color your bike according to your wish. Obviously, it will not have any impact on your efficiency.
- ☑ Next, you can choose different gloves to improve your grip while riding the bike at speed.
- ☑ In the end, you can apply different stickers on your bike to make it look more beautiful.

### **Selecting the Game Mode**

One more thing that plays a key role in your perfectionism while playing this Traffic Rider mod APK is selecting the right game mode and the road you're going to travel on. It depends on user interest, but at the same time, we should not forget the difficulty as well, as you might end up getting frustrated if you're unable to succeed by selecting the wrong game mode.

Let's discuss some of the game modes and how much different they are from one another.

**Career**

It is a one-way and two-way game mode with 3 levels you go through to complete this game mode. Below is a detailed overview of every level.

### ***1st Level:***

In Traffic Rider mod APK, the 1st level is based on 42 missions with different weather conditions. Each mission comes up with different tasks to complete, and as a reward, the player gets a bonus for completing the mission. The player can also earn cash by reaching the finishing line on time.

### ***2nd Level:***

This level starts with the winter weather and further starts to change with every passing mission. It is based on from 43 to 78 missions with different conditions and roads, and at this level, the bonus amount increases, and you get more money by finishing on time.

### ***3rd Level:***

This level is totally based on cold conditions with snowy weather, and players have to put on some extra clothes and expertise to pass the mission as the difficulty increases in this level, but so does the amount of reward.

***Endless***

Endless is another game mode based on one-way and two-way roads. Here, you get the option to select 4 stages.

- ☒ Highway
- ☒ Desert
- ☒ City
- ☒ Winter

Each stage comes up with 3 different weather conditions and allows the user to have a different riding experience according to their interest.

### ***Time Trial***

In this game mode, the player runs with the clock and tries to cover the maximum distance to secure the fastest spot. This mode can require your focus and, at the same time, a beast under you.

### ***Free Ride***

Free Ride is another similar gaming mode with the same stages and conditions, but here, you get the option to select the traffic density according to your choice with a percentage of 0 to 100.

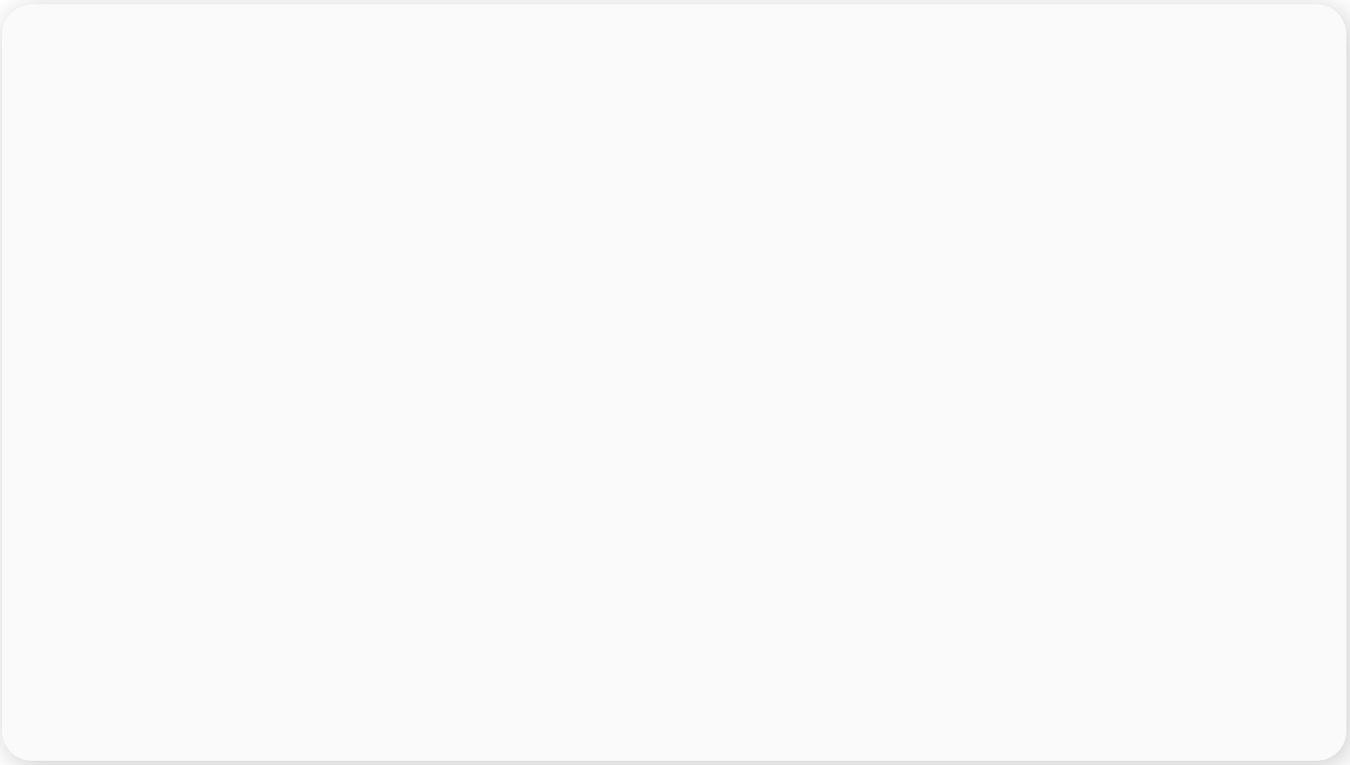

### ***Fast Speed Dodging Reward***

While you're on the road with traffic around you, try to maintain the maximum speed you can and dodge the vehicles around you on speed, and this way, you can earn rewards in the form of points.

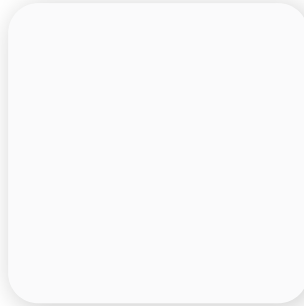

### ***Highlight Your Achievements***

Share your records with others on different social platforms to show your achievement in this game. You can also show off your collection of bikes and difficult missions you completed with ease to make them go WOW.

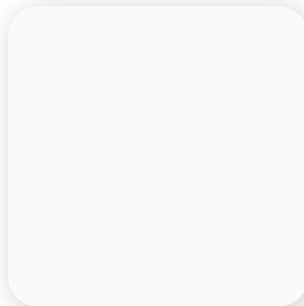

## ***Tips and Hacks to Succeed***

### **Earn Reward with One Wheeling**

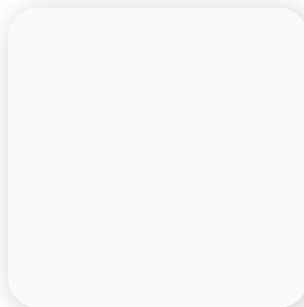

If you want to earn some extra bucks while playing, even though you already will have enough in this mod APK, you can try one-wheeling while on the road to earn some cash.

### ***Keep your hand on the Brakes***

While riding the bike at speed, keep an eye on your surroundings and use your hands on the brakes so you can avoid any unwanted situation easily.

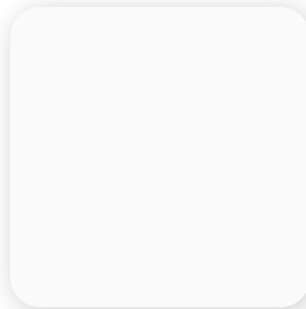

### ***Stay in the Opposite Direction***

When you have to maintain the time to complete the mission, always try to drive on the opposite side

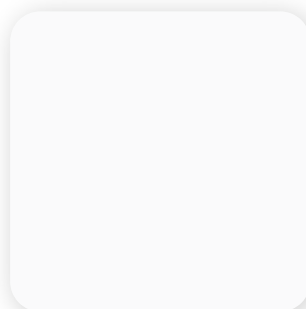

of the other vehicle so that you can speed up without the fear of any collision.

### ***Speed up to Finish on Time***

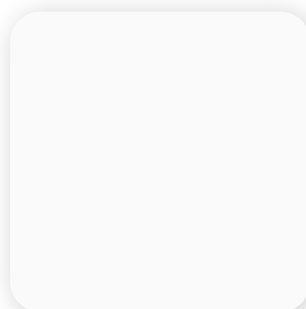

Some missions are based on time, where you have to finish on time. Try to keep the speed up from the start to cover the maximum part as the traffic at the start is low, which can be beneficial for you later on when the traffic increases, so even if you take some time, you will still reach the finishing line on time.

### ***Concentrate while Playing***

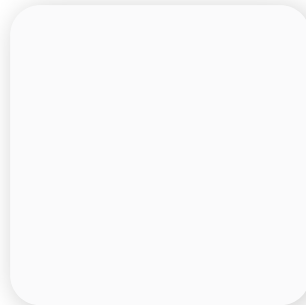

Focus is the key to success in any field of life, and the same goes for the Traffic Rider mod APK; your concentration level should be high while playing, and this will help you make quick decisions.

### ***Smart Decision Making***

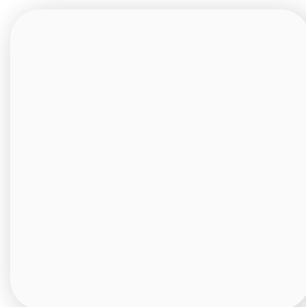

Sometimes, you have to calculate the situation earlier and make the decision accordingly to keep the run smoothly without any fear of quick decision-making during the game.

### ***Knowledge of Controls***

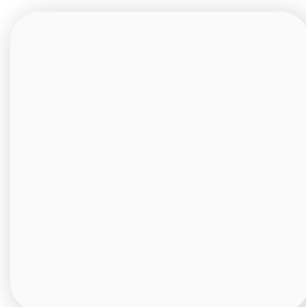

If you're playing the Traffic Rider mod APK for the first time, do check the controls before playing any tough mission so you can have a good grip on the controls.

### ***Boost the Speed***

Having an idea of the situation often reduces the chances of failure, so try to use the boost feature at the right time when you see less traffic on the road so you can easily cross them without getting hit.

### ***Find the Gaps***

Try to be focused when traffic on the road increases and find the gaps to avoid any collapse with

other vehicles. It will require your focus and skills to have the idea of when to speed up and when to press the brakes.

### ***User-Friendly Interface***

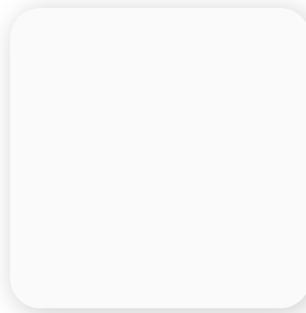

Talking about the UI/UX of this game is another interesting thing to notice. The creators of the Traffic Rider mod APK did a great job by keeping in mind the kind of audience they wanted to target with this game. The simplest yet unique design presents the player with a great experience.

The design is mainly focused on the one-click-away action, so even a person who is less familiar with the latest technology can easily control the game. If we go deeper and look at the other factors, like the beauty of the design, then one thing that stands out is the quality of media and real-life experience provided in this exemption Traffic Rider mod APK game.

This is another big factor that keeps the user engaged with this game and gives them the opportunity to make the most out of it by enjoying a good gaming experience

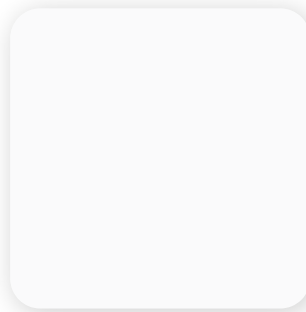

### ***Why People Prefer Traffic Rider MOD APK?***

### ***Progress through different Missions***

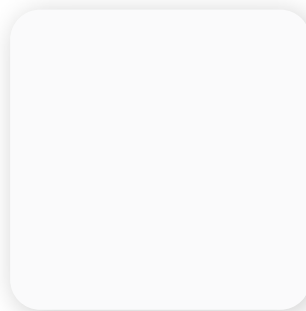

If you have ever played the simple version of this game, you must be aware that you can't proceed to the next mission until or unless you complete the previous mission. In the Traffic Rider mod APK, you can easily unlock any mission or map without even completing the previous one.

### ***Environment and Climate Change***

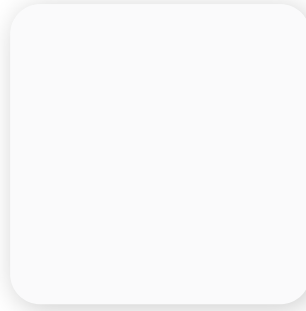

Players have the option to select the environment setting to their liking. You select daytime, noon, or night, and you can also select the weather. You can also try different locations like Cities, deserts, highways, etc.

### ***Unlimited Resources***

Having access to unlimited Premium stuff without paying anything from your pocket is a good deal, and this Mod APK provides you with the opportunity to access countless unlocked features.

### ***License Free & Root***

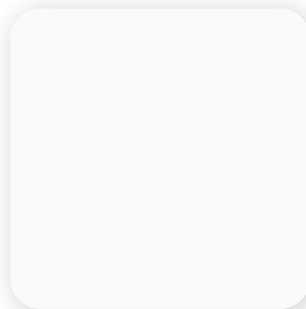

One of the big reasons people prefer the Traffic Rider mod APK version is they don't have to pay anything or put extra effort into unlocking any feature. Even in some games, you have to root the mobile and use some tools to get full access to the features, but in this game, you will have access to every premium stuff after downloading the APK file.

### ***Ad Free Experience***

It can be frustrating when you are at an important stage of the game trying to focus, and suddenly, an ad pops up on your screen, and you can't really do anything apart from skipping it. Well! In this Traffic Rider mod APK, you will have an ad-free experience without any unwanted interruption.

### ***HD Graphics***

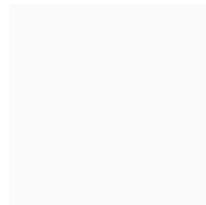

With ultra HD graphics, players can feel a real-life experience within the game, and it improves the

playing capabilities of the player. One can easily feel the difference in quality of graphics between the simple and the Traffic Rider mod APK. You can also modify the visuals according to your interests.

## ***Key Features of Traffic Rider APK***

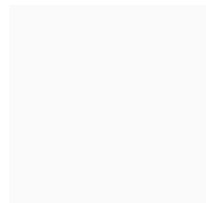

While we talk about the other factors and things related to this modified game, one can only wonder what features it consists of that make it so popular among people. Well! This driving simulator game consists of many features that can make you wow.

This Traffic Rider mod APK provides you with every feature that you look for in a simple traffic rider. So, let's discuss some of the key features of this game.

### ***More Achievements and Rewards***

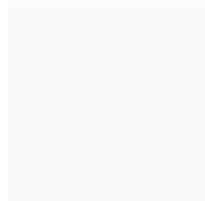

Because of the unlimited cash and coins you have in this mod game, you can keep the game going even if you get crashed or bumped into any car every second, as you can use the money to keep the mission alive. So, you can easily complete any mission, no matter how hard it is, and at the same time keep unlocking the new achievements.

### ***Easy-to-navigate interfaces***

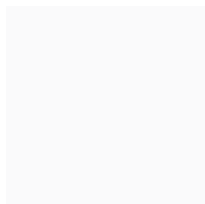

The simple yet uniquely designed interface allows users to navigate through different options with just one click. The easy-to-understand and adaptable controls allow players to get used to

the game quickly.

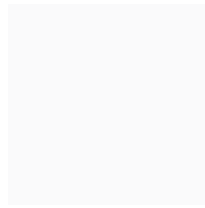

### ***Offline Play without internet***

These days, almost all the famous games can only be played when you're online and your device is connected to the internet, but in this game, you can play offline without using the internet at any place.

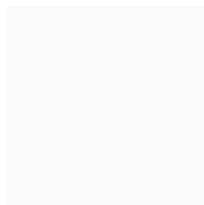

### ***Accomplishments records***

Players can share their achievements in the game online on different platforms to showcase their talent. You can join different groups online to challenge others to beat your record in this game.

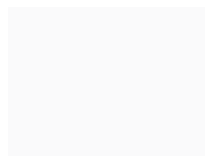

### ***Premium Bike Collections***

One of the best things about this game is its top bike collection, with all the premium bikes around the world parked in the garage. You'll never have seen these types of bikes with heavy engines and features in any other game, and the best part is you can ride all of them for free in this game.

### ***First-Person Camera***

A first-person camera view feels the same as viewing from your eyes. It makes the user enjoy the real riding experience and makes him feel all the things happening around him with his eyes.

### ***Top Notch Ambience***

The atmosphere of this game plays a good role in keeping the player engaged, while the different conditions make it look more pleasing to the eyes and give a unique vibe to the players.

### ***Sound Quality***

The sound quality of this game is another great feature. All the sounds added in this game sound too real, be it the sounds of bikes, traffic, or nature; everything sounds so accurate.

### ***Controls Guide***

To have an understanding of what can result in success and improve the chances of winning, let's discuss some of the key controls of this Traffic Rider mod APK and get a good grip on them.

This game provides four types of control to the player so they can select and adjust according to their ease.

- ☒ Handlebar Controls
- ☒ Gamepad Controls
- ☒ Buttons Controls
- ☒ Tilt Controls

### ***Handlebar Controls***

The main purpose of introducing handlebar controls in this game was to provide the player with a proper feel of real-life bike riding with 2 handles on each side, the same as a real bike. The player just has to hold tight to both the handles and control the bike according to their experience of real-life bike riding.

Another good thing about these controls is that new players don't have to adjust to the controls of the game as they are already familiar with these controls and know how to handle them.

### ***Gamepad Controls***

Gamepad controls are the same as any other gaming controls where you have to keep your finger placed on the different buttons and make them move according to the need. I'm not a big fan of this as most of your fingers are occupied on screen, and the focus can get mixed between handling the controls and understanding the situation of the game.

Still, some people prefer to have these controls as they are quite used to this while playing other remote games.

### ***Buttons Control***

Button controls are another great way to control the bikes, and some of the players prefer to have these over tilt controls as they can control the movement of the bike by themselves. Players just need to have a good grip over buttons and should be aware of the placement of the buttons as well while playing, as sometimes you're more focused on the bike rather than looking at the buttons.

You can also adjust the buttons according to your choice by going into settings and making the adjustments accordingly.

### **Tilt Controls**

Tilt controls are, by default, selected controls in this game, And they are mostly used as well. As the name suggests, you just have to move your device to the right and left to control the bike and speed up the bike. There is an option on the right side of the screen, and for a break, you will find the button on the left.

Overall, it is the smoothest and easiest way to run the bike as you don't have to keep moving your finger here and there; you just need to move your device. In this setting, you calibrate the controls by clicking on calibrate to make them move perfectly.

### ***Setting Adjustments***

Knowing basic settings can result in a good gaming experience, so let's talk about some of the essentials that need to be done so you have a smooth experience while playing.

### ***Sound FX and Music***

The music beat used in this game is quite catchy and attracts the players as well, but with time, you might get bored, so just go to the setting, click on the music, and you can increase or decrease the sound according to your wish.

You can also adjust the sound Fx, which you hear while playing, and if it irritates you, you can fix the sound of them as well, and at any time, you can re-adjust the setting as well.

### ***Advanced features***

Advanced features contain three types of features.

- ☑ The first feature allows you to change the speed unit into KMH or MPH.
- ☑ The thing on the list is the option that allows the user to drive on the left side.
- ☑ The third and last one is the ability to change the weather effects according to your choice.

### ***Graphics Level***

This setting allows the player to adjust the level of graphics according to their choice by clicking on the option in front of graphics and just setting it to high, medium, or low, whichever suits their needs.

The main purpose of this setting is some players are using old devices with less space and are not suitable for gaming, so this setting option is best for these kinds of devices as it allows you to adjust it so that you don't lag between the games.

## ***Multilingual***

Being one of the most popular games around the globe, the Traffic Rider mod APK comes in multiple languages within the game. Players can easily change the language of the game by just going into the settings and clicking on the Language tab; you can select any language, and this changes the language of the game.

Make sure that while selecting the language, you select the right language that you understand, as if you unintentionally selected the wrong one, you might end up messing it up. You won't be able to understand anything because of the change of language.

## ***Save/Load***

The save and load feature allows you to save your downloadable content in your Google profile, and if you connect on any other device or if you mistakenly deleted the game, try to reconnect the game with the same Google profile, and all the data will be loaded again.

You can easily shift between devices and keep track of your profile, and also this way, you'll never lose your gaming profile with all the achievements over time.

## ***Garage Overview***

Garage is the place where you will find all the beasts parked. Players can choose any bike in this Traffic Rider mod APK, as you can easily unlock any bike of your choice without any restrictions. In the garage, you have multiple settings where you can modify your bike according to your needs, as we discussed above.

Moreover, if you look at the bike collection we have here, every bike stands out from the others. We have a total of 34 bikes so far in this update, and they have some amazing qualities. Below, you can look at the bike names we have here.

**Extra Life**

This item in-store allows you to get an extra life for all bikes every time you get hit by any other vehicle in the game. Now, you can easily go fast and furious in the game because only this game allows you to have a second life.

### ***Traffic Rider Mod APK Old version***

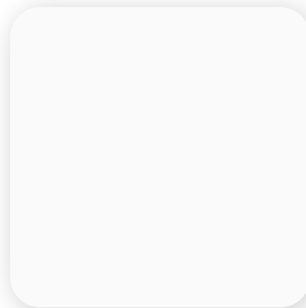

The [Old Version of this App](#) is quite famous as well, and some user prefer to have it on their device as it brings nostalgia for the old interface. Old versions are more compatible with old Android devices, and that is one of the big reasons people prefer them.

Some of the famous old versions are v1.99, V1.98, V1.96, V1.95, V1.81, V.170, V1.61, V1.60, V1.5, V1.4, V1.3, V1.2, V1.1.1, V1.1.

## ***Traffic Rider Mod for PC/MAC/Windows 8,9,10,11***

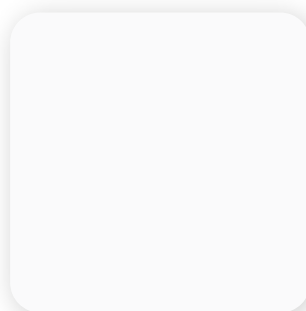

Playing this game on your Android is fun, but some people like to have it on their PC/MAC or Windows. There are a few reasons behind this, and the biggest one is the large screen size they have compared to Android. People also like the controls over the keyboard as it is easier for them to control.

On the other hand, the big screen also improves the user experience, and players find it more comfortable as they have a clear view of the screen.

To play [Traffic Rider on PC](#), you'll need an emulator on your PC that works the same as Android and allows you to use any mobile app on your computer. You can also get [Traffic Rider on your Mac](#) by following somiliar steps like this.

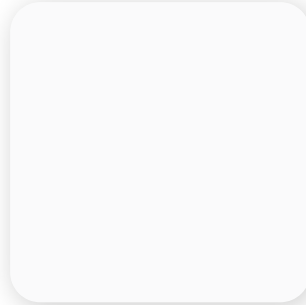

## ***Traffic Rider MOD APK on iOS/iPhone***

I have also shared some tricks on how you can download it on your iPhone and a detailed overview of this game for IOS users. Check it out.

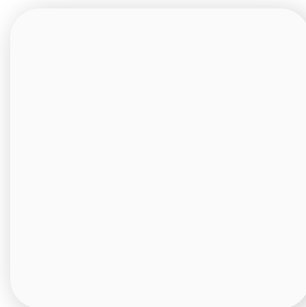

## More Games By SK Games

### Wings on Fire

This game is quite different than the other two, but inspiration must be taken from Subway Surfers. In this game, You will ride a plane at full speed, going through different caves and hurdles and collecting coins and other stuff. On the other hand, different fireballs and bullets will be pointed toward you, which you have to dodge to stay safe and complete the mission.

### Traffic Racer

Traffic Racer is another creation of [SK Games](#) based on the same theme as Traffic Rider, where you have to run along the other vehicles and dodge them to finish on time and complete missions. The only difference is that it is based on cars with 27+ car options parked in the garage. You can choose any. You can also customize them according to your needs.
